

More sealing and retaining solutions to meet your needs

Specifying the best component for your fluid system or electrical distribution system can be a real challenge. But one call to IFE can save you time and money.

IFE has a complete range of solutions and decades of experience matching them to customer needs. Sometimes you want the very best product, sometimes one that meets all the specs for less. We offer both.

IFE offers the following products, all leading brands (including our own), in many sizes and materials. Ask us to recommend the best solution for your application.

Sealing Products

- Worm-drive clamps
- Springband clamps
- T-bolt clamps
- Heavy-duty clamps
- Couplings
- Crimp rings

Specialty Products

- Sleeves
- Heat-shrinkable tubes
- Connectors – tee, elbow

Fixing and Retaining Products

- V-band profile clamps
- Retaining clips
- Retaining straps
- Cable ties

World-class technical and manufacturing capabilities

Behind every great product is a dedication to quality and innovation. IFE maintains tight control over how its products are made, earning ISO-9001:2002 certification and requiring it of all suppliers. Suppliers are also certified for TS16949, UL and other standards, as applicable.

IFE supports global customers with engineering and testing resources in the U.S. and Sweden, including CATIA and ProE file exchange. Our in-house lab facilities (current and in-progress) include tensile testing, destruction torque, burst pressure, salt spray, clamping force distribution, and much more.
